

Lars Dige Knudsen
Chairman of the Board,, Aarhus Airport A/S

"I have been using BOARD OFFICE for several years, and in my assessment, the portal is the most thoroughly developed board portal on the market.

The portal makes it possible to gather all central documents – finance, strategy, action plans, minutes, etc. – in a structured and secure solution, which provides a clear overview and creates consistency in the board's work processes.

Access from both laptops and mobile devices makes it possible to work effectively before, during, and after meetings. I can therefore unreservedly recommend BOARD OFFICE."
