

## Partnership Agreement

Nordea has chosen BOARD OFFICE for their business customers with the aim of utilizing a cloud-based portal that facilitates the work of the company's management and board.

Head of Business Banking Denmark, Helene Bløcher: "The portal facilitates the work of companies' management and board and contributes to the company having 'things in order' through a cloud-based, secure solution. At the same time, the portal ensures that it is easy to share documents with lawyers, auditors, and the bank."
