

To strengthen our international governance and secure our workflows across all board activities, the Aalborg Portland Group has chosen to use BOARD OFFICE as its board and management portal. The switch from another provider ensures a robust solution that covers all companies and countries, as well as a supplier with solid insight into international board work.

We are extremely satisfied. BOARD OFFICE delivers the most promising portal on the market combined with excellent service for all users.

The implementation has been fast, including the delivery of the desired language variants and a seamless data migration.

The collaboration throughout the entire process has been exemplary.  
Henrik Jeppesen CFO & Executive Officer, Aalborg Portland Holding A/S
