

Ole Brøndum Kristensen
Deputy Director, Traidium

"At Traidium, the board has continuously evaluated its work to enhance professionalism. In 2021, an evaluation led to the decision to acquire a digital board portal to improve IT support. After more than four years with BOARD OFFICE, Traidium's board is very satisfied.

The portal has raised the quality of the board work by creating efficiency and overview, ensuring high data security, facilitating the onboarding of new members, and being user-friendly. BOARD OFFICE has made the board work more professional, efficient, and value-creating - We certainly have not regretted our choice and can highly recommend the portal."
