

## Partnership Agreement

In a strategic partnership with Danske Maritime (Danish Maritime), we are focusing on the digitization and strengthening of board work in the maritime industry. The collaboration aims to optimize governance, increase security, and improve decision support in maritime companies.

Danske Maritime is central to promoting innovation, sustainability, and responsible management within the industry. The partnership supports the digital transformation and ensures that boards operate professionally, efficiently, and in full compliance with current requirements for data handling and information security.
