

Rasmus Kjær Blegvad  
Partner, Kompetencekanalen A/S

"Since implementing BOARD Assistant, we have gained an AI tool that not only helps with board meetings but has also professionalised our board work and elevated the relevance of the meeting content.

Since we started using BOARD OFFICE, we have seen the value of a well-thought-out portal. We can therefore only recommend that companies wishing to work professionally and structuredly with their board work connect with BOARD OFFICE and the competent team behind it."
